

**Title: EWP Estimator**

**Location:** currently at 4507-61 Ave Leduc, AB however we will be relocating by year end to 3735-8th Street Nisku, AB.

At Star, our people make the difference. We offer an exciting place to build your career with competitive compensation and benefit packages, company matching RRSP/DPSP program, employee home purchase program and employee discounts.

**Job Overview**

Reporting to the Estimating Manager, as the **EWP Estimator** you are responsible for creating the structural framework that support roofs, ceilings, and walls in buildings with a primarily focus on preparing models for estimating use. You may also work with light metal plate connected wood trusses for roof and floor applications, prefabricated wood I-joists and structural composite lumber (SCL) in an engineered wood products (EWP) design and manufacturing environment.

Your day-to-day responsibilities will include:

- Creating computer models using computer-aided design (CAD) software.
- Reviewing and interpreting customer-supplied documents, such as blueprints or drawings, to identify any areas that require clarifying.
- Reviewing constructability of the projects and identifying opportunities for value engineering.
- Occasionally meeting with clients to discuss project details and design specifications.
- Maintaining model price lists and directing Designers and Sales Department on project pricing.
- Promoting a safe work environment and ensuring compliance with Qualico's Safety Program, policies and procedures.
- Providing support to other projects or duties as assigned.

As our ideal candidate, you are...

- Organized; you effectively manage your time while balancing multiple priorities.
- A strong communicator; you clearly express your thoughts in conversation and in written communication.
- An active listener; you seek to understand and listen to others in a non-judgmental way.
- Detail oriented; you focus on detailed accuracy when dealing with a high volume of work.
- A team player; you contribute as a team member and share equally in the exchange of ideas, concepts and process outcomes.

**Essential Requirements**

- Post-secondary education or technical training courses in Engineering, Architecture or Drafting.
- Knowledge of building codes, wood frame construction practices, construction methods, design principles, and building materials.
- Valid driver's license and access to a reliable vehicle.
- Satisfactory verification of criminal record check.
- Comfortable using Microsoft Office programs (Outlook, Word, Teams, SharePoint, PowerPoint and Excel), and drafting and industry design software (Mitek).

## Preferred Requirements

- Previous experience in the construction industry or as an Estimator for a home builder or trade partner experience can be valuable.
- Previous drafting and design experience in the construction industry preferred.
- Previous experience in lumber and building materials industry is a strong asset.

## What We Value

- Creating trusting and successful working relationships.
- Cooperating with team members in an open, positive and respectful manner.
- Setting clear, measurable and achievable goals.
- Taking responsibility for the outcomes of decisions and actions.
- Continuously pursuing learning and growth.

## Work Conditions

Primarily works in an office setting during regular business hours. Travel to sites and overtime may occasionally be required.

After ninety days probation a flexible workplace policy will be available.
