

Description

Federated Co-operatives Limited (FCL) is hiring an Environmental Coordinator on a temporary basis at our Co-op Refinery Complex. This position requires on-site work and is based in Regina, SK.

Do you have a passion for the environment? We are looking for someone to join our Health, Safety and Environmental team at the Co-op Refinery Complex, where you'll enjoy competitive pay, full benefits, a pension, and the chance to collaborate with a dynamic, supportive team while making a real impact.

We operate a world-class refinery that utilizes cutting-edge technology to produce 130,000 barrels of refined petroleum products per day and an annual production capacity of 6.8 billion liters. As one of Canada's largest refineries we employ over 1,000 people.

What you'll do:

- Direct and coordinate environmental programs and activities to ensure compliance with applicable environmental regulations.
- Develop and maintain a strong working relationship with internal stakeholders both in the field and office as well as the environmental regulators.
- Ensure we are operating in compliance with environmental regulations by contributing to, coordinating, and carrying out environmental programs and activities, executing procedures for collection and collation of environmental controls and monitoring the operations.
- Maintain awareness of new and evolving regulations as they apply to the refinery and ensure all environmental reporting is performed, as required by the City of Regina, Environment Canada, and the Saskatchewan Ministry of Environment.

Who you'll work with:

The Team: You will work closely with the HSSE team. This teams strive to cultivate a culture of collaboration, autonomy, and safety.

The Collaborators: You will work closely with other functions such as Legal, Government Relations, Communications, Process Operations, Technical Services, and Product Supply.

Why it matters:

We fuel Western Canada. Our Refinery strives to be a recognized leader in safety, reliability and sustainability within the petroleum-refining industry.

Why it matters:

We fuel Western Canada. Our Refinery strives to be a recognized leader in safety, reliability and sustainability within the petroleum-refining industry.

Who you are:

You are looking for a career in Health Safety, Security & Environment (HSSE) and:

- Have a bachelor's degree in applied sciences or a related field.
- Have 5+ years of experience in environmental management, and regulatory & compliance experience.

NOTE: This role is advertised as an Environmental Coordinator, the internal title may vary pending candidate qualifications to Environmental Engineer or Environmental Analyst.

We are committed to providing reasonable accommodations throughout the recruitment process to ensure an enjoyable candidate experience. If you require an accommodation during the recruitment process, we invite you to submit your requests to us via fclhr@fcl.crs. All information received will be kept confidential.

If this opportunity speaks to you, we invite you to apply by October 22, 2024.

We thank all candidates for their interest, however only those selected to continue in the recruitment process will be contacted. **FCLUL**

Please note you will be required to comply with the safety sensitive employment conditions in accordance with CRC policies.

FCL embraces diversity and inclusion. We're working to create a workforce that is as diverse as the communities we serve and an environment where every team member brings their whole self to work. We believe all candidates should feel at home with us and be given the opportunity to fully participate during the recruitment process.
